Subject: RE: Extension of time for LWG respond to Round 2B Conditional Approval
Date: 10/06/2005 09:51 AM

Jim and others -

In a message I received from Todd Martin yesterday, the meeting was moved to Tuesday Oct. 11, and was slated to start at 1pm. Would you like to have the meeting start at 10am instead?

thanks
valerie

Chip, thanks for the accommodation on the extension.

Our thoughts on the 2B coring is to have that conversation during the Tuesday meeting, since all the major parties will be present. The technical discussion will focus on Time Oil, since the US Mooring site is more of a policy issue and the LWG agrees to add the core at Willamette Cove (assuming the "seep" language is removed).

Valerie, can we confirm the Tuesday meeting for 10:00 at Schwabe (immediately following our Mngt meeting)? Thanks, Jim.

Jim

EPA approves your request to extend the response deadline to COB next Wednesday. Since we have postponed the TZ sampling meeting on Tuesday, we also need to decide whether to move ahead with our discussion on the 2B cores tomorrow or add it to the end of our discussions on Tuesday. Let us know what works for your team.

Thanks
Chip Humphrey

respond to Round 2B Conditional
Approval

Chip, thank you for the extension through next Tuesday. After further internal discussion we realize that one more day would be extremely useful because Monday is a holiday, and the LWG Exec will not meet until next Wednesday morning. Therefore, an extension through next Wednesday would allow Exec time to review and come to final decision on the issue.

Thanks, Jim.

Subject: Extension of time for LWG respond to Round 2B Conditional
Approval

Jim, Rick and Bob,

This is in response to the LWG's verbal request for an extension of time to respond to EPA's conditional approval of the revised Round 2B Subsurface Addendum to the Round 2 Field Sampling Plan (Revised Round 2B Addendum), dated August 22, 2005. EPA approved the document with directed changes in our letter dated September 26, 2005, and hereby extends the date for LWG's acceptance of the directed changes from October 3, 2005 to October 11, 2005. It is our understanding that LWG needs additional time to complete a technical review of the directed changes. We have tentatively agreed to discuss of these issues on Friday, October 7.

Chip Humphrey
